

EMERGENCY EYE KIT

Act Fast When Vision is on the Line

Designed for Urgent Ocular Infections

In cases of corneal ulcers, keratitis, or post-op infections, delayed treatment can mean permanent vision loss. **Massey Drugs' Emergency Eye Kit** provides **sterile, clinic-ready Tobramycin and Vancomycin** so your team can start treatment immediately—no pharmacy trip required.

Why Clinics Keep This Kit On Hand

- **Fast Response, Immediate Treatment:** Begin antibiotic therapy within minutes of diagnosis.
- **After-Hours Coverage:** Ideal for weekends, holidays, or rural clinics with limited pharmacy access.
- **Avoid ER Referrals:** Treat patients in-house without delays or unnecessary visits elsewhere.
- **Trusted Compounds:** Sterile formulations prepared to ophthalmic standards by Massey Drugs.

Ideal For:

- **Satellite or rural ophthalmology clinics**
- **High-volume ophthalmology or post-op practices**
- **Coverage during weekends, holidays, or supply gaps**

“When it comes to ocular infections, every hour matters. This kit gives clinics the power to act fast and preserve vision.
