

Your Partner in Patient-Specific Compounding

What Sets Us Apart

- **Customized Compounds:** Tailored treatments when commercial drugs don't meet patient needs.
- **Precision Dosages:** Strength and formulations designed for the individual
- **Alternative Forms:** Capsules, creams, liquids, injections, suspensions, and more
- **Allergen-Free Options:** Dye-free, preservative-free, lactose- and gluten-free as needed
- **Custom Flavoring:** Improves compliance, especially for children and pets
- **Fast Turnaround:** 24–48 hour shipping to the patient's home or preferred address
- **Insurance-Friendly:** We work with all major insurance providers
- **Clinical Support:** Our pharmacists are available for formulation consults and case review
- **Patient Follow-Up:** We follow through—helping patients stay adherent and informed

Sterile Compounding You Can Trust

Massey Drugs compounds sterile medications in compliance with USP <797> standards, using cleanroom environments and specialized equipment to ensure safety and stability.

Common Sterile Preparations:

- **Injectables:** Testosterone, GLP-1s, vitamin injections, and more
- **Sterile Ophthalmic Drops:** Custom eye drops including Losartan and low-dose Naltrexone
- **Inhalation Therapies:** Prepared for rare but clinically indicated cases

We Compound Solutions for Your Patients

Organism-Specific Compounding Solutions

When culture or DNA results identify the organism, our pharmacists interpret the data to help you prescribe a more targeted therapy. We compound patient-specific treatments based on:

- Culture and Sensitivity Data
- PCR or DNA Sequencing
- Lab Results and Pathogen Reports

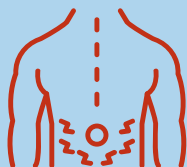

Our Specialties

Ear, Nose & Throat
Custom medications for bacterial, fungal, and viral infections

Weight Management
Compounded GLP-1 medications to support weight loss

Pain Management
Pain relief in precise dosages, unique combinations and customized delivery systems
